SUMMARY

Software Engineer with a strong foundation in full-stack development, object-oriented programming, and agile practices. Skilled in JavaScript, React, Java, and SQL, with experience building web applications and solving technical challenges through academic projects and internships. Comfortable working with teams to design and develop efficient software solutions. Looking to contribute my coding, debugging, and problem-solving skills to meaningful projects while continuing to learn and grow.

EDUCATION

Bachelor of Technology in Computer Engineering   **Sep 2020 - Jun 2024**

Government College of Engineering, Yavatmal

Higher Secondary Certificate   **Aug 2019 - Mar 2020**

DSM College, Parbhani

Secondary School Certificate   **Jun 2017 - Mar 2018**

Bhartiya Bal Vidya Mandir, Parbhani

TECHNICAL SKILLS

- Programming Languages: C, Java, JavaScript
- Front End Development: HTML, CSS, Bootstrap, React
- Technologies: JDBC, Servlet, JSP, REST APIs
- Backend & Frameworks: Spring, Spring Boot
- ·Databases: Oracle, SQL
- Tools : Git, GitHub, VS Code, Eclipse

PROJECTS

Weather App   **Sep 2024 - Oct 2024**

- Developed a real-time weather application that fetches weather data from an external API.
- Integrated OpenWeatherMap API to display temperature, humidity, and forecast details.
- Designed a modern, responsive UI using Bootstrap and CSS.
- Implemented error handling for invalid city inputs.

Student Management System   **Jan 2025 - Feb 2025**

- Developed a Student Management System using Java, Servlets, JSP, JDBC, and Oracle to efficiently manage student records.
- Implemented CRUD operations (Create, Read, Update, Delete) for student data, ensuring seamless database interactions.
- Designed a dynamic and responsive frontend using JSP and Bootstrap for an enhanced user experience.

INTERNSHIP

Trainee, Maharaju Healthcare Technologies Private Limited   **Oct 2024 - Jan 2025**

- Improved user satisfaction scores by 25% through collaboration with designers to streamline the interface design process. Reduced interface design delivery time by 30% by implementing agile collaboration practices with the team.
- Built 10+ responsive web pages, increasing traffic by 40% through enhanced user experience and accessibility.

SOFT SKILLS

- Analytical Thinking: Strong problem-solving skills for debugging and optimizing code.
- Team Collaboration: Ability to work efficiently in cross-functional teams.
- Adaptability: Quick learner, capable of handling new technologies and challenges.
- Time Management: Prioritizing tasks to meet deadlines efficiently.
- Attention to Detail: Writing clean, efficient, and maintainable code.
- Creativity: Innovative approach to designing user-friendly interfaces and solutions.
